

## **Hong Kong Organic Resource Centre Certification Ltd. Register as Conventional Strawberry Seedlings Supplier**

According to clause 3.4.3 of the Organic Production, Aquaculture, Processing and Input Standards 2026 (IFOAM Accredited Version), if organic or in-conversion seeds or vegetative reproductive materials are unavailable in the market, corresponding conventional materials may be used; if such conventional materials require post-harvest treatment, they must comply with the requirements of the standard. To allow certified farmers to flexibly utilize conventional strawberry seedlings under compliant conditions and alleviate production constraints, the company will relax the requirements for strawberry seedlings until July 31, 2029. Certified farmers may purchase conventional strawberry seedlings from registered conventional strawberry seedling suppliers, provided that their cultivation adheres to the company's organic standards to ensure product quality and maintain consumer confidence. Therefore, suppliers who intend to become an authorized conventional strawberry seedling supplier of our company, please submit the following information regarding the cultivation of strawberry seedlings for our records.
